HUSSEIN ZAHRAN

Artificial Intelligence Student | Python Developer | Machine Learning Enthusiast

Professional Summary

Artificial Intelligence student at Al-Zaytoonah University of Jordan with hands-on experience in Python, machine learning, deep learning, data analysis, and backend development. Skilled in building AI-based and data-driven applications using TensorFlow, Scikit-learn, Pandas, FastAPI, and Power BI. Actively seeking an internship to apply technical expertise, gain industry exposure, and contribute to impactful technology projects.

Education

Bachelor's Degree in Artificial Intelligence Oct 2023 – Present

Al-Zaytoonah University of Jordan | Amman,Jordan

Certifications

- Python Programming
- Machine Learning
- Deep Learning
- SQL

PROJECTS

MedAI | Python | ML | Explainable AI

• Bilingual disease prediction & medical risk assistant — **97.52% accuracy**.

MediFlow AI | Python | ML | FastAPI

• AI emergency triage & waiting-time prediction system.

Voice Emotion Recognition | Python | ML | Librosa

• Voice-based emotion classification system.

Skills

Programming: Python, JavaScript, HTML/CSS

AI & Machine Learning: Machine Learning Algorithms, Deep Learning, TensorFlow, Keras, Scikit-learn, Neural Networks

Data Analysis: Pandas, NumPy, Matplotlib, Data Cleaning, Data Visualization, Power BI

Backend & Databases: FastAPI, SQL, SQLite

Tools: Git, GitHub, VS Code, PyCharm

Car Price Prediction | Python | ML | Regression

• Regression model trained on **200K+ vehicle records**.

Netflix Dashboard | Power BI | Data Analysis

- Interactive dashboard for Netflix content analysis.
